RAISE REWARD FOR BANKER.****WILL TRY TO RECOVER \$1,500****Instructed the County Attorney to
Take Legal Steps to Recover Money
Over Limit in Failed Bank—Alleged
Banks Have Combine.**

O'Neill, Neb., March 17.—Special to The News: The board of supervisors before their adjournment Friday raised the reward offered for the apprehension of Patrick Hagerty, the fugitive cashier of the defunct Elkhorn Valley bank, to \$1,000.

Want to Recover.

The county attorney was also directed by the board to take such legal steps as are necessary to recover from former County Treasurer D. J. Cronin and his bondsmen the amount of county money the treasurer had in the Elkhorn Valley bank in excess of that allowed by law at the time of the failure in November, 1904, which amounts to about \$1,500. The board also refused to make a final settlement with the former treasurer and authorized the expediting of the county records.

Alleged Bank Combine.

The county attorney was further directed by the board to proceed to dissolve an alleged combination of Holt county banks for the purposes of securing county money at a lower rate of interest than heretofore paid. The banks have previously paid 3 per cent for county money but will bid only two this year.

On the 10th it was damaged by fire. Yesterday the amount of the damage was agreed upon and the same will be paid in the near future. The exact figures of the estimate agreed upon are \$7,266.50. This amount it is expected will replace the church exactly as it was before the fire.

Plans for the new through train on the Northwestern from Omaha to Casper and Shoshoni are being considered by the Northwestern officials and train service will shortly be inaugurated. From an unofficial source the date of the beginning of the new service is given as April 1, although this probably is slightly early. No new train will be put on the Northwestern east of the Missouri river, but connections will be made with one of the present fast trains between Omaha and Chicago. When this train is put into operation there will be three passenger trains each way on the main line as far as Long Pine and two west of there. The new train is to be a through train and will stop only at the principal stations on the main line, and so make much better time than any of the trains now operated on the line.

The Jetter Brewing company of South Omaha have just secured a lease on the Shaffer building at the Junction. The saloon building is now occupied by Henry Hasenpflug. What disposition will be made under the new lease of the saloon building, or if there will be any change, has not been announced as yet. The lease is for two years and takes effect May 1. The saloon building now occupied by James Walton has also been secured by the Jetter Brewing company on a five-year lease to begin May 1. To secure the building it was necessary to take a lease on all three floors. With the acquiring of the two saloon buildings the Jetter people have broken into the saloon business of Norfolk quite hard. They have made several attempts to secure a vault for storage purposes but have not succeeded so far. They will probably have to build this.

The proposed dipping tank for the farmers on the Santee reservation and the surrounding country will be installed early in the spring and work in dipping all of the cattle and horses will begin. State Veterinarian McKim has just returned from Monowi and Niobrara and reports that arrangements are being made to organize a stock company among the farmers for the installation and operating of the tank. It will be put in either on the Santee reservation or east of Niobrara. This will give it a central location so that it will be of easy access to all the stock in the infected zone. The farmers are all anxious to get to work dipping their stock so as to stamp out the itch. The chief difficulty in driving out the itch will be with the Indians, who will have to be forced to dip their stock in many instances. The Indian agent has promised co-operation with the state authorities and before fall all the stock on the agency and in the surrounding country will have been dipped. During Dr. McKim's trip he investigated one case of glanders and shot the horse. This was near Monowi. It was the only case found.

The ice situation in Norfolk has been saved during this last cold spell and there is as much ice in the icehouses of Norfolk today as in a normal year. Practically every icehouse in the city is filled to the roof with ice with the exception of Waldo & Dillenbeck's and they are making preparations to begin cutting on their pond before the present cold spell breaks. Oertwig has been harvesting ice all this week and tonight will probably fill his house to the roof. As this is a new ice house its contents are practically a distinct gain over previous years. Likewise there are 500 tons of ice in the icehouse put up by the Fair store and Emil Kauffman, which is another addition for this year. Every private vault and icehouse, which is in the city, is now filled with ice so that all of last year's capacity is put up in addition to that of the new houses. If there was any need for it much more ice might be harvested in Norfolk during this cold spell as the ponds and lake are covered with a nice layer of ice, which is quite thick enough for marketable purposes. If the weather continues as it is during next week, the local ice men declare that they will be in position to ship ice out of Norfolk to any of the surrounding towns, where there may be a shortage. The ice this year is not of as nice a quality as that of previous years and there will be much more waste to it. The short cold spells necessitated the cutting of ice when it was not over eight or ten inches in thickness and some of it is as thin as six and seven inches. However, it is generally quite clear and clean and will answer the purpose next summer just as well as thicker ice.

TO ATTEND MURDER TRIAL**MANY BUTTE MEN GO TO O'NEILL
TO TESTIFY.****THE KILLING OF BOB CEARNS****Myron Irwin is Charged With the Murder
of Cearn Near Boyd-Holt County
Line Last March—This is Second
Trial—Story of the Killing.**

A large number of witnesses who are to testify in the murder trial at O'Neill beginning today, in which Myron Irwin is charged with having stabbed and killed Robert Cearn in Holt county, a year ago this month, arrived in Norfolk from Butte yesterday, spent the day in Norfolk and left last night for O'Neill to be on hand this morning when the trial began.

Among the witnesses called to testify in the case were Dr. Beatty of Butte, who was the first physician summoned to the scene of tragedy and who goes to give expert testimony regarding heart and stomach wounds from which Cearn died; Frank Masinda, a Butte druggist; Tom Coleman, sheriff of Boyd county; Pat Shannon of Butte; R. B. Crosse of Butte; Tim Coleman of Butte; Dwight Kenaston, Jo Strain, J. W. Zemor, R. T. Houek, Jo Wise; Mr. Hughes, E. Tuxberry of Winnetoon, and Butte's veterinary with his pet dog "Tug."

The Crime.

The crime with which Irwin is charged occurred March 30, 1905, near Badger, Neb., in Holt county, just across the Boyd county line. Cearn is alleged to have been stabbed by Irwin as a result of a quarrel between the two men at Butte, which town they had visited that day.

As a result of two wounds inflicted in Cearn's body, one in the heart and the other in the bowels, he died within an hour. At the time it was said that friends of the dead man started after Irwin, threatening vengeance, and it was reported at the time that Irwin had telephoned to the sheriff that he would meet the officer at Stuart.

This is Second Trial.

This is the second trial of the case, the first one having resulted in a verdict of murder in the second degree against Irwin, but a new trial was granted by the court because of a technicality in an erroneous instruction to the jury.

It is believed that the trial will consume at least a week or ten days.

M. F. Harrington of O'Neill is defending the prisoner and the prosecution is being conducted by County Attorney Arthur Mullen of O'Neill, assisted by Attorney Al Tingle of Butte.

The News does not only seem to have "scooped" the metropolitan dailies on some of the vital world's news, but its weather forecasts recently have caught the like fever. Saturday's dailies promised fair and warmer weather for Sunday, except The News, which forecasted snow or rain for Sunday, and up here snow is in order.

ing over his section, Tuesday morning. No one has yet found out whether it was for a joke or some one hung in effigy. It might have been Pat Crowe hung in effigy, who knows?

Barrett, who is now at Excelsior Springs, Mo., drinking the waters of that resort for stomach trouble, writes that the weather down in Missouri is just a little chilly for this time of the year, and that the real season has hardly begun yet, but that he is feeling the benefit of his trip. It is learned from other sources that Frank Donner is in a hospital at Spokane, Washington, suffering from a gunshot wound, but how he received it is not known.

The Boys' orchestra will give a dancing party at Marquardt hall for the visiting teachers on the evening of April 6. This orchestra is made up mostly of members of the high school orchestra. Those taking part and all receiving second place were: Bessie Harrison, Edward Schlecht, George Hubenthal, Clarence Galbraith and Irwin Rooke. The music by the Beemer orchestra was a pleasant feature of the evening.

F. S. Genung of Norfolk was plaintiff in the case brought up recently in the Boone county court at Albion, in which John and Effie Wright of Petersburg were charged with stealing household goods from Genung. Mr. Genung has returned from there, the defendants having been dismissed. He says that at first his charges included about \$200 worth of stuff but that through technicalities the articles alleged to have been stolen were very much reduced in numbers until at last there were but a few things in the count. Mr. Genung had lived in the same house with the Wrights and had moved out, leaving his goods stored. He alleged in the charge that when he came to move, his goods were gone.

"In order to bring before the people of Norfolk what a sewerage system means," said a citizen today, "I think a meeting should be held, where the matter could be explained to those who are disbelievers in the project. People down on the east part of the city, whose cellars fill with water, in many cases do not believe that the sewer will drain their cellars. And then some of them seem to think that they are going to have to pay for other people's sewers. If they could only be made to understand that a sewer will drain the surplus moisture of the town out of the cellars, and if they were only assured of the fact—which is a fact—that the city is to own the main sewer and that people will not have to pay for other people's, then the proposition would have a better show of getting a big majority at the coming election."
